

Joe Dockery

Joe Dockery

Joe Dockery teaches high school multimedia courses, and manages the school's technology staff development, and website. Dockery has a master's degree in education and a certificate in distance learning design and development from the University of Washington. Dockery also trains nationwide on the use and integration of Adobe products as an Adobe Education Leader. He has a wealth of knowledge on how to integrate multimedia software into the classroom and prepare students for the Adobe software certification exams.

His awards include the Washington State Golden Apple and the Radio Shack National Technology Teacher of the Year.
