## **Teacher Leader Program**

Northwest Council for Computer Education and Microsoft have partnered together to bring quality technology professional development workshops to your area.

### **21<sup>st</sup> CENTURY LEARNING:**

Hands-on training on project-based student centered activities for K-12 classrooms by combining Microsoft Web 2.0 tools like SkyDrive, Windows Live Writer, Bing Maps, and programs such as Microsoft Office, Windows Live Movie Maker, OneNote, Photosynth, AutoCollage, Learning Essentials, Sound Recorder and Windows Media Player, and Worldwide Telescope.

### **THE WORKSHOPS ARE CREATED FOR:**

- K-12 Teachers
- Curriculum Integration Specialists
- Technology Specialists and Teachers

### **WORKSHOP OVERVIEW**

- This 2.5 day workshop will help classroom teachers use technology as tools to help students **Collaborate**, **Communicate**, be more **Engaged** in their learning, and stay **Organized**.
- By combining Project Based Learning, 21<sup>st</sup> Century Learning skills and some innovative free tools by Microsoft, learn how to engage students and their creativity with easy to use tools and activities that capitalize on the 21<sup>st</sup> Century Learning Skills while meeting the curriculum goals and learning objectives.
- Facilitated time to develop your own classroom technology integrated activities.

### **BENEFITS:**

- *Receive a Microsoft Teacher Leader certificate.*
- *Ability to receive a "21<sup>st</sup> Century Classroom Pack for Students" upon completion of additional tasks after the workshop.*
- *All professional development curriculum and resources will be available for use in your school after the workshops.*
- *Eligibility for clock hours or college credit (will vary by state)*
